

Tarkett's Balanced Choice: Laminate

Tarkett® Laminate is part of Tarkett's choice of sustainable solutions, an integrated system that allows for balancing all the competing needs, while making choices that are truly sustainable and work together aesthetically. To learn more, visit tarkettna.com.

People-Friendly Spaces

- Tarkett Laminate is FloorScore™ certified for assurance of low emitting materials and indoor air quality
- Tarkett Laminate uses EPP HDF board for compliance with the California Air Regulatory Board, indicating minimal usage of raw materials
- Tarkett Laminate eliminates use of waxes and polishes in residential and commercial spaces for reduced exposure to wet floors and risk of slip/falls
- Tarkett provides coordinated transitions for all laminate products for a more aesthetically cohesive space
- Tarkett Laminate will not trap dust and other airborne contaminants, allowing for proper filtration through HVAC systems

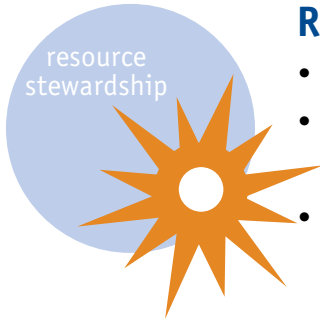

Better Raw Materials

- More than 80 percent of Tarkett Laminate is from recycled materials
- More than 90 percent of Tarkett laminate board raw materials are sourced from within 200 miles of the plant
- Tarkett Laminate board production is on the same site as laminate production, eliminating transportation of boards
- Tarkett Laminate uses 100 percent hardwood for board production to improve indentation resistance (IC3 on all products), providing better aesthetics

Sustainability: an everyday practice, not just an idea.

Tarkett's Balanced Choice: Laminate

Resource Stewardship

- Condensation from closed-loop water system is reclaimed, filtered and reused
- All Tarkett® Laminate display products are AC4 rated for long wear, reducing replacement cycles, and have a lifetime warranty against wear
- Tarkett Laminate entry level products are AC3 rated for long wear and reduced replacement cycles, and are warranted for 20/25 years against wear

Recycling

- Dust produced in laminate facility is used to fuel board facility
- Scrap boards are used for cabinetry, drawers and packaging

Balanced Budget

- Tarkett Laminate eliminates waxes and polishes for reduced life-cycle costs and reduced materials and energy consumption
- Plank construction reduces waste factor over sheet or broadloom material
- Damaged planks are easily replaced, prolonging life cycle of the floor
- Tarkett Laminate can be installed glueless which reduces installation time and materials

Sustainability: an everyday practice, not just an idea.
